AMD Software: Adrenalin Edition 24.3.1 Release Notes

Article Number: RN-RAD-WIN-24-3-1

New Feature Highlights

• New Game Support

- Dragon's Dogma 2
- Horizon Forbidden West™ Complete Edition
- Outpost: Infinity Siege

• Expanded HYPR-Tune Support

- Dragon's Dogma 2
- Diablo® IV
- Ghostrunner 2
- Suicide Squad: Kill the Justice League

Fixed Issues

- Excessive micro stutter may be intermittently experienced after enabling AMD Fluid Motion Frames for select games.
- Improvement to intermittent driver timeout or application crash experienced while playing HELLDIVERS™ 2 on AMD Radeon™ RX 7900 series GPUs.
- Intermittent application crash or driver timeout may be observed while playing Star Wars Jedi: Survivor™ on Radeon™ RX 7000 series GPUs.
- Improvements to reduce initial loading times while playing World of Warcraft with DirectX 12 API on some AMD Graphics Products, such as the Radeon™ RX 6800.

Feedback

- Purple corruption may be observed while playing Dying Light 2 Stay Human: Reloaded Edition with Radeon™ Boost and Raytracing enabled.
- Some characters may appear invisible or have missing textures while playing Cossacks 3.
- Flickering lights may be observed while playing Space Engineers in certain indoor environments.
- The maximum memory tuning limit may be incorrectly reported on AMD Radeon™ RX 7900 GRE graphics products.
- Shader caching may fail for Windows usernames containing accented characters.
- FPS performance metric may incorrectly report values while a game is minimized.
- GPU Acceleration may be missing/greyed out in Adobe Premiere Pro on some hybrid graphics systems.
- Performance drop may be observed while using some DirectML workloads in Topaz AI.

Known Issues

- Intermittent driver timeout or application crash may be experienced while playing HELLDIVERS™ 2 on dual monitor setups on some AMD Graphics Products, such as the Radeon™ RX 7900 XTX.
- Intermittent application crash may be observed while playing Lords of the Fallen and entering certain areas on Radeon™ RX 6000 series GPUs. [Resolution targeted for 24.4.1]
- Artifacts may appear in certain mud environments while playing SnowRunner on some AMD Graphics Products, such as the Radeon™ RX 6800. [Resolution targeted for 24.4.1]
- AMD SmartAccess Video may be incorrectly reported as “Available” on some systems with the Parsec Virtual Display Driver installed. [Resolution targeted for 24.5.1]
- Audio and video may intermittently become out of sync while recording using the AV1 codec in AMD Software: Adrenalin Edition. [Resolution targeted for Q3]

Important Notes

- For users who previously installed an AMD Software preview driver, running AMD Cleanup Utility is recommended before installing this driver.
- Some per-game graphics profiles may have incorrectly been set to HYPR-RX Eco after a driver upgrade. Users experiencing this issue may use the Factory Reset option to return all profiles to default.

Package Contents

AMD Software: Adrenalin Edition 24.3.1 Driver Version 23.40.27.01 for Windows® 10 and Windows® 11 (Windows Driver Store Version 31.0.24027.1012).

The AMD Software: Adrenalin Edition 24.3.1 installation package can be downloaded from the following link:

By clicking the Download button, you are confirming that you have read and agreed to be bound by the terms and conditions of the [End User License Agreement](#) ("EULA"). If you do not agree to the terms and conditions of these licenses, you do not have a license to any of the AMD software provided by this download.

Installing AMD Software: Adrenalin Edition

For detailed instructions on how to correctly uninstall or install AMD Software: Adrenalin Edition, please refer to the following support resources:

- [How-To Uninstall AMD Software on a Windows® Based System](#)
- [How-To Install AMD Software on a Windows® Based System](#)

NOTE: This driver is not intended for use on AMD Radeon products running in Apple Boot Camp platforms. Users of these platforms should contact their system manufacturer for driver support. When installing AMD Software: Adrenalin Edition 24.3.1 for the Windows® operating system, the user must be logged on as Administrator, or have Administrator rights to complete the installation of AMD Software: Adrenalin Edition 24.3.1.

Radeon Product Compatibility

AMD Software: Adrenalin Edition 24.3.1 is compatible with the following AMD Radeon products.

Radeon™ RX 7900/7800/7700/7600 Series Graphics

Radeon™ RX 6900/6800/6700/6600/6500/6400 Series Graphics

Radeon™ RX 5700/5600/5500/5300 Series Graphics

Mobility Radeon™ Product Compatibility

AMD Software: Adrenalin Edition 24.3.1 is a notebook reference graphics driver with limited support for system vendor specific features.

AMD Radeon™ RX 7900M Series Graphics

AMD Radeon™ RX 6800M Series Graphics

AMD Radeon™ RX 6700M Series Graphics

AMD Radeon™ RX 6600M Series Graphics

AMD Radeon™ RX 6500M Series Graphics

AMD Radeon™ RX 6300M Series Graphics

AMD Radeon™ RX 5700M/5600M/5500M/5300M Series Graphics

AMD Processors with Radeon Graphics Product Compatibility

Important Note for Laptop and All-In-One (AIO) PCs

AMD recommends OEM-provided drivers which are customized and validated for their system-specific features and optimizations.

If you experience issues using the AMD Software: Adrenalin Edition driver package downloaded from AMD.com, please install the OEM-provided drivers for full support and compatibility.

AMD Software: Adrenalin Edition does not include support for handheld gaming devices. Users should check with the OEM for device specific drivers.

DISCLAIMER

The information contained herein is for informational purposes only and is subject to change without notice. While every precaution has been taken in the preparation of this document, it may contain technical inaccuracies, omissions and typographical errors, and AMD is under no obligation to update or otherwise correct this information. Advanced Micro Devices, Inc. makes no representations or warranties with respect to the accuracy or completeness of the contents of this document and assumes no liability of any kind, including the implied warranties of non-infringement, merchantability or fitness for particular purposes, with respect to the operation or use of AMD hardware, software or other products described herein. No license, including implied or arising by estoppel, to any intellectual property rights is granted by this document. This notice does not change the terms and limitations applicable to the purchase or use of AMD's products may be set forth in a separate signed agreement between you and AMD.

OVERCLOCKING WARNING: AMD processors are intended to be operated only within their associated specifications and factory settings. Operating your AMD processor outside of official AMD specifications or outside of factory settings, including but not limited to the conducting of overclocking (including use of this overclocking software, even if such software has been directly or indirectly provided by AMD or otherwise affiliated in any way with AMD), may damage your processor and/or lead to other problems, including but not limited to, damage to your system components (including your motherboard and components thereon (e.g. memory)), system instabilities (e.g. data loss and corrupted images), reduction in system performance, shortened processor, system component and/or system life and in extreme cases, total system failure. AMD does not provide support or service for issues or damages related to use of an AMD processor outside of official AMD specifications or outside of factory settings. You may also not receive support or service from your board or system manufacturer. Please make sure you have saved all important data before using this overclocking software.

DAMAGES CAUSED BY USE OF YOUR AMD PROCESSOR OUTSIDE OF OFFICIAL AMD SPECIFICATIONS OR OUTSIDE OF FACTORY SETTINGS ARE NOT COVERED UNDER ANY AMD PRODUCT WARRANTY AND MAY NOT BE COVERED BY YOUR BOARD OR SYSTEM MANUFACTURER'S WARRANTY.

The software that has been directly or indirectly provided by AMD or an entity otherwise affiliated with AMD may disable or alter: (1) software including features and functions in the operating system, drivers and applications, and other system settings; and (2) system services. WHEN THE SOFTWARE IS USED TO DISABLE OR ALTER THESE ITEMS IN WHOLE OR PART, YOU MAY EXPERIENCE (A) INCREASED RISKS THAT CERTAIN SECURITY FUNCTIONS DO NOT FUNCTION THEREBY EXPOSING YOUR COMPUTER SYSTEM TO POTENTIAL SECURITY THREATS INCLUDING, WITHOUT LIMITATION, HARM FROM VIRUSES, WORMS AND OTHER HARMFUL SOFTWARE; (B) PERFORMANCE AND INTEROPERABILITY ISSUES THAT MAY ADVERSELY AFFECT YOUR EXPERIENCE AND THE STABILITY OF YOUR COMPUTING SYSTEM; AND (C) OTHER EXPERIENCES RESULTING IN ADVERSE EFFECTS, INCLUDING, BUT NOT LIMITED, TO DATA CORRUPTION OR LOSS.
